Hello Nate,

Please see the collective IRT comments on the attached BEI and CE documents. Also, the previously proposed IRT revisions for the Subordination Agreement must be done, which the IRT understands will require additional coordination/comments from Newhall.

Thanks,

Shannon L. Pankratz, D. Env.

Subject: [URL Verdict: Neutral][Non-DoD Source] PRMB Area F Spineflower Introduction Amendment

Dear IRT,

We have addressed all of your comments and edits to the various BEI documents. We have attached here the clean and tracked changes word documents as well as a response to comments matrix that acts as a repository for all of your comments and our responses. The color coding is such that green cells are where we accepted your edits or made the requested edit to address your comment. The blue cells are where no edits were made. Purple cells are where we wanted to draw your attention to a specific response. In the clean folder you will also find a new document per the IRT's request; Exhibit K-15 which details the debited credits resulting from this amendment, this document is now referenced in Exhibit F-1. We have also uploaded all of these documents to RIBITS along with the assembled pdfs.

Please note there were a few minor changes made by Newhall to the CE, and they also let me know that the Subordination agreement had already been signed, so if at all possible they would like to keep it as-is. We have included on RIBITS the signed version.

Please feel free to reach out with any questions and I would be happy to have a meeting next week to go over anything the IRT would like to discuss.

Regards and have a great weekend!

Nate
